Dear Mr. Mayo:

You are invited and urged upon by the State Staff of the Farmers Home Administration to attend a program closing a Housing Loan made to Mr. Elmer Porter, a Negro farmer in Navarro county. This loan, in the amount of \$11,900.00, is significant in that it represents the largest loan made to a Negro family in the Nation, under the Farm Housing Act of 1949.

The program will be held in the Pelham Community, located approximately 25 miles west of Corsicana, Texas. Come out Highway No. 22, turn left on the first farm-to-market road, after leaving the little town of Frost; signs will guide you from that point to the Pelham Community.

A free barbecue dinner will be served at 12:00 noon. Dr. E. B. Evans, president of Prairie View A. and M. College will deliver the principal address.

We will be very happy to have you join with us in this celebration. It is our wish that you will bring with you, if convenient, several farmers or tother interest individuals.

Very truly yours,

C. R. Robinson,
Administrative Assistant

Dear Agents:

In the meeting at Prairie View on June 29 plans were discussed for holding a training meeting for your agents having Farm Unit Demonstrations. We have checked our calendar for determining the amount of time available for this work. It is our feeling that one day per district aside from travel can be devoted to this training.

We can work in your district sometime during November, following Staff Conference which ends November 3. We shall advise more definite date following our September Conference.

Would it be satisfactory to arrange the training meeting in Fayette County and have the Caldwell and Ft. Bend Agents drive over for the farm planning demonstration? From our viewpoint such arrangement would seem logical, but we are simply making that suggestion.

July 19, 1950

TO EMPLOYEES OF THE TEXAS AGRICULTURAL EXTENSION SERVICE:

I have just had a long distance telephone conversation with Mr. B. R. Mishler, Branch Manager, Lee Tire and Rubber Company, Dallas, Texas, concerning the tire situation and in substance it is just about as follows:

About the time the Korea trouble started all of the tire manufacturers were low on raw material and also were in the process of making inventory which means most plants were shut down. Before the plants could start full production orders came in faster than they could make tires. Stocks in state supply houses were exhausted, yet orders kept coming.

We have on file in the Dallas office in the neighborhood of 62 orders which have been dated and will be filled in the order in which they were received, at the price quoted in the contract between County Agricultural Agents Association and the Lee Tire and Rubber Company. All orders that have been placed since July 15 will carry a net increase of 5% and future orders will carry the same increase, so, in making out your orders now add 5% to the price of the tire or tube only. The federal tax is not changed.

Mr. Mishler assured me that the tires would be shipped just as soon as they are received. It will be from three to five weeks before the orders that are now on file can be shipped.

Of course, if drastic action is taken by the Government the Lee Tire and Rubber Company will have to fall in line with whatever regulations may be imposed in the emergency.
