TO ALL 4-H CLUB MEMBERS:

I hope sincerely that every member of the Four-H Clubs will realize that as individual citizens they have an obligation to work to maintain world peace.

To anyone who has seen the destruction that modern war brings, another war is unthinkable, but peace will not come to us without effort. We will have to work for it and each individual citizen in his own life, in his own community must see that this effort is made for the sake of future civilization.

Very sincerely yours,
