PRAIRIE VIEW A&M UNIVERSITY

PRAIRIE VIEW, TEXAS

MAY, 1979

PRAIRIE VIEW A&M UNIVERSITY

One hundred years is a long span in the life of a man or an institution. What do the years mean? For man or institution, if they are filled with service to people . . . the years are a benediction . . .

Prairie View is an institution - a public institution. But an institution is an empty thing without the beating hearts and yearning of souls of mortal men. And down through one hundred years of Prairie View's existence, men have lived and dreamed here until every blade of grass and every rock has joined the choir invisible to bless their memory. For every man whose foot has touched this hallowed soil has found a spirit, and has broadened and deepened it until what started out as an ambitionless meandering stream has become a purposeful river upon whose tide, now turbulent, now tranquil, floats the destiny of countless human hopes and dreams.

THE CENTENNIAL FUND

Prairie View A&M University celebrated its 100th anniversary during the period January 1, 1978 to December 31, 1978. Two major outcomes of the celebration were: (1) the development of a master plan to guide the direction of the University's growth during the next ten years, and (2) the establishment of the Centennial Fund Drive to raise \$24 million from private sources in order to provide an endowment for the University.

Historically and presently the University has no endowment. The Centennial Fund will provide a \$24 million endowment that will yield approximately \$2,500,000 in operating capital without any expenditure of the corpus which will be permanently invested. The \$24 million Centennial Fund will be secured through an intensive, three-year drive covering the period January 1, 1979 to December 31, 1981. Gifts for the Centennial Fund will come solely from private and philanthropic sources. The target groups for the drive will be students, faculty, alumni, businesses, corporations, foundations and a wide range of friends of the University.

It was decided early in the campaign that an important part of the Centennial Fund would be gifts from students, faculty, alumni and private friends of the University. Historically, this group has not been able to support the University in a substantial monetary manner. To show that positive contributions could be secured from this group, a goal of \$1,000,000 was established as a part of the Centennial Fund Drive. It was desirable that students, faculty and alumni show good faith in giving, before a serious approach would be made to foundations and corporations. To initiate the fund raising effort, members of the student body, faculty and alumni were invited to invest in Prairie View A&M University through a charter membership in the Centennial Fund. A charter membership is a gift which begins at \$1,000 and has no upper limits.

This program honors 230 charter members who have contributed a total of \$325,000 to the Centennial Fund. Included in this group of charter members are individuals who have given gifts to the University ranging from \$1,000 to \$100,000. It also honors 51 patrons who we encourage to become charter members before 1981.

As it can be seen, the University is well on the way to exceeding the \$1 million goal established for students, faculty, alumni and friends. We have until December 31, 1981 to reach the goal and success seems to be within our reach.

As we approach businesses, corporations, foundations and individual donors, we can now say that we first HELPED OURSELVES before we sought the help of others. We BELIEVED IN OURSELVES before we asked others to believe in us. We WORKED FOR OURSELVES before we asked others to work for us.

We are succeeding in our efforts, and we now ask others to join us in the success . . . the success of ensuring that Prairie View A&M University continues to produce productive people . . . through quality education, research and public service.

	g. Student Activities Facilities	3.0 M	
		GRAND TOTAL	\$24,000,000

EXCELLENCE . . . WITHIN OUR REACH

Nothing ever built arose to touch the skies unless some man dreamed that it should, some man believed that it could, and some man willed that it must.

—CHARLES F. KETTERING
